

Physical Therapy at The University of Kansas Hospital

Our approach to physical therapy addresses more than patients' physical needs. We consider their psychological, psychosocial, developmental and cultural needs as well. As a member of our team, you'll work closely with physicians, nurses and other health care staff to help patients recover from debilitating injuries and illnesses.

The University of Kansas Hospital has an outpatient physical therapy clinic that treats a variety of musculo-skeletal and neurological diagnoses. We're also proud of our 17-bed inpatient rehabilitation unit and its patient outcomes that consistently rank above regional and national averages. In fact, our program was one of the first in the area to receive accreditation by CARF – the Rehabilitation Accreditation Commission.

Here's what you can expect when you join our outstanding Physical Therapy team.

- A comprehensive orientation covering general and specialized physical therapy treatment.
- Opportunities to use your problem-solving and patient evaluation and assessment skills.
- Excellent outcomes in functional improvement, discharge planning and patient satisfaction.
- State-of-the-art therapeutic and rehabilitation equipment.
- Opportunities to rotate through rehabilitation, orthopedics, cardiac, neurological, trauma, intensive care units, medical/surgical services and specialty clinics.
- Continuing education to advance your skills and knowledge.
- Opportunities to train physical therapy and physical therapy assistant students.

To learn more about our Physical Therapy team and excellent benefits package, call 913-588-1227 or toll free 1-800-332-6048. Or visit www.kumed.com for information or to apply online.
