

Radiology at The University of Kansas Hospital

We use a wide array of equipment – from simple X-ray machines to a highly advanced combination PET/CT scanner – to detect and diagnose patients' injuries and illness. As an essential part of our multidisciplinary approach to care, you'll work closely with an expert staff of radiologists to ensure the very best patient outcomes.

Here's what you can expect when you join our outstanding Radiology team.

- A comprehensive orientation covering general and specialized radiology procedures.
- An all-digital environment that features state-of-the-art equipment.
- Experience performing complex and interesting procedures in a dynamic teaching and research setting.
- A fast-paced atmosphere, with 170,000+ procedures a year and continued growth for the future.
- A leadership team that is committed to your professional growth and success.
- A caring, patient-centered environment where you can share your knowledge, skills and compassion.
